

Advanced Defensive Driving Training Course

A proactive approach to driving that emphasizes safety and accident prevention. This training program aims to equip drivers with the skills and knowledge to anticipate potential hazards and react effectively.

Objectives

- To promote a safety-first culture throughout the organization.
- To reduce insurance costs and liability by minimizing accidents.
- Empower drivers to take responsibility for their own safety and the safety of others on the roads.

Training goals

Awareness

Increase drivers' awareness of their surroundings and potential risks.

Decision-Making

Improve critical thinking and decision-making skills in realtime driving situations.

Risk Reduction

Significantly decrease the likelihood of accidents through enhanced skills and knowledge.

Course Contents
